

Barton Pump Station Upgrade

Construction update

February 24, 2015

North ferry lane closed 24/7 for two weeks starting March 2

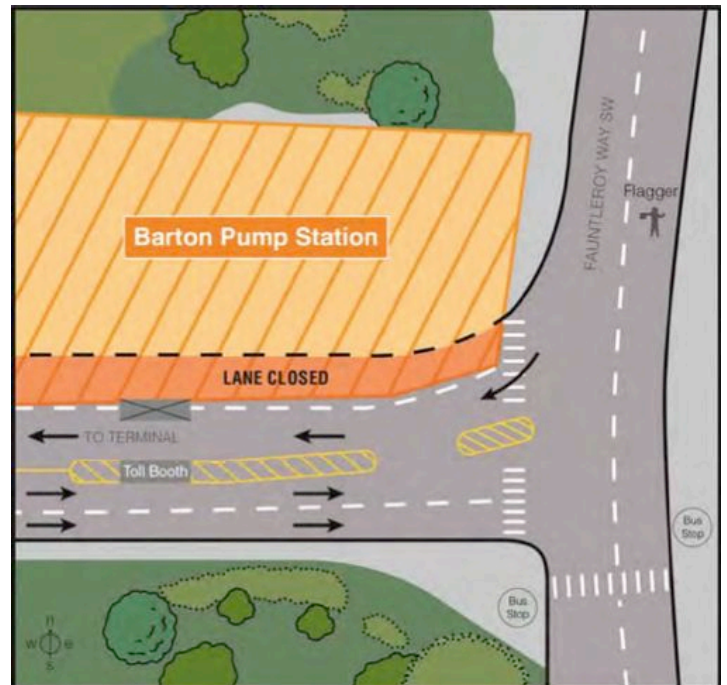

Starting March 2, the north ferry lane will be closed around-the-clock for two weeks as crews work on the retaining wall between the Barton Pump Station and the north side of the Fauntleroy Ferry Terminal.

Crews will work between 7 a.m. and 6 p.m. daily, but the closure will remain in place 24 hours per day to accommodate the work area and construction equipment.

Prior to this closure, expect intermittent daytime closures of the north ferry lane while crews prepare for this construction.

Keeping ferry traffic moving

King County has been working closely with Washington State Ferries throughout the project to ensure minimal disruption to traffic along Fauntleroy Way SW and to keep ferry traffic moving.

While the north ferry lane is closed, commuters can expect flaggers as necessary to assist pedestrian and bike traffic during work hours.

What to expect

- North ferry lane closed around-the-clock for two weeks in early March.
- Work hours 7 a.m. to 6 p.m.
- Noise and dust typical of a construction site.

We appreciate your ongoing patience during construction!
